2 Health insurance

1. All international students residing in Korea are required to enroll in the **National Health Insurance (NHI)** in accordance with Korean law. Enrollment is automatically processed once the student completes foreign resident registration after entering Korea, and students must pay a monthly insurance premium.
2. Before completing foreign registration, new students **must have private insurance (such as travel insurance or private international student insurance) upon arrival** in Korea. (It may take approximately two months to complete foreign registration.)
3. Failure to have either National Health Insurance or private insurance may result in the cancellation of scholarship benefits.
