Admission Schedule and Application Submission

1. Selection Schedule

division		Rolling admissions		Regular admission	
		1st	2nd	1st	Autonomous recruitment
Application		2026.09.07 (Mon) ~ 09.30(Wed)	2026.11.11 (Wed) ~ 11.25 (Wed)	2027.01.04 (Mon) ~2027.01.20(Wed)	2027.02.15(Mon)~ Until February 27, 2027 (Sat)
Interview date		2026.10.08(Thu)	2026.12.02(Wed)	2027.01.27(Wed)	
Announcement of successful candidates		2026.10.15 (Thu)	2026.12.10(Thu)	2027.02.03(Wed)	
successful candidates registration	Deposit registration	Dec. 21 (Mon) ~ Dec. 23 (Wed), 2026			
	Successful candidates from additional recruitment Announcement/Registration	Until January 3, 2027 (Sun)		Until February 27, 2027 (Sat)	
	Final Registration	Feb. 10, 2027 (Wed) ~ Feb. 12, 2027 (Fri)			

• The list of successful candidates will be announced on the university website [http://enter.kunjang.ac.kr].

• The interview schedule is subject to change depending on the university's circumstances.

2. Application Submission

division		Application Method
Reception	Online application	• Jinhaksa [www.jinhakapply.com] • Online applications are only available for the general admission category.
	Counter reception	• Kunjang University Admissions Center, 1st Floor, Main Building (063) 450-8046~8 • Reception Hours: Weekdays 09:00 ~ 18:00 (Closed on Saturdays and Sundays)
	Mail application	• Mailing Address: "Gunjang University Admissions Center," 13, Gunjangdae-gil, Seongsan-myeon, Gunsan-si, Jeollabuk-do, 54045 • Required Documents: Application form, original or copy of additional documents (if applicable)
	FAX reception	• Kunjang University Admissions Center FAX : (063) 450-8065
Receipt confirmation		You can check your application and test number at Home ÿ Admissions Information ÿ Check Application.
Important notes for application		• You cannot change the application type or department, or cancel the application after submission. • Applications cannot be cancelled after payment of the application fee, and the fee is non-refundable. • Mail applications must arrive by the deadline (18:00).

Internet application Application Fee Information	Department	Application fee	charge	Total

Selection Criteria

1. Eligibility Requirements by Selection Type

Selection Classification			Eligibility
Common ÿÿ			• High school graduates (or prospective graduates) or those recognized by law as having equivalent or higher educational qualifications
In the garden	General Admission		• High school graduates (or prospective graduates) or those recognized by law as having equivalent or higher educational qualifications
	Special Admission (Internal Criteria)	Graduates of vocational high schools	• Graduates (or prospective graduates) of specialized high schools, special-purpose high schools, etc. • Graduates (or prospective graduates) of vocational courses at comprehensive high schools
		Certified person	• National technical qualifications in all technical and vocational fields (Craftsman level and above) and private qualifications • Various certifications related to the relevant department and major
		Experienced Professionals	• Those with a cumulative work experience of at least 2 months
		Adult learners	• Persons aged 25 or older ÿ Criteria for Mature Students: Those aged 25 or older as of the admission date of March 1, 2027. • Available Departments: Social Welfare (Evening), Smart Horticulture & Landscape Architecture, Smart Agro-Food, Fashion & Textile Industry
		Applicants meeting independent criteria	• Those who meet the independent criteria for the university's special admission
Outside of the quota	Graduates of junior colleges or higher		• Graduates of junior colleges or graduates (or prospective graduates) of four-year universities • Those who have completed at least two years of study at a four-year university (provided that a total of at least 70 credits have been earned) • Those who have completed the entire course at a two-year vocational college or are recognized as having equivalent academic qualifications • Others who possess qualifications equivalent to or higher than a junior college degree under relevant laws
	People from rural areas		• (Type I) The student attending a school located in a rural area from the time of middle school admission until high school graduation Those who have completed the educational curriculum and, at the same time, whose parents reside in a rural area • (Type II) Only the student themselves has completed the entire elementary, middle, and high school curriculum at a school located in a rural area and has resided there.
	Basic livelihood recipients and the near-poverty group		• Persons who qualify as basic livelihood recipients or the next-lowest income bracket under the National Basic Livelihood Security Act ÿ Eligibility Criteria for the Near-Poverty Group: Reduction of co-payments for the near-poverty group, self-sufficiency benefits, disability allowance, disability pension, supplementary benefits for the near-poverty group, Students from households receiving benefits from one or more single-parent family support programs
	Employed persons, such as graduates of specialized high schools		• Graduates of specialized high schools, etc., currently employed in an industry for 3 years or more
	Late learners / Working adults		• Persons aged 25 or older, or those with a cumulative work experience of 2 years or more in an industrial company ÿ Criteria for Mature Students: Those aged 25 or older as of the admission date of March 1, 2027.
	Special Education Candidates (Persons with Disabilities)		• Selected through deliberation by the University Admissions Management Committee based on the degree of disability resulting from the applicant's physical characteristics
	Overseas Koreans/Foreigners		• Those who have transferred from a foreign school to a domestic high school and graduated (or are expected to graduate) • Those who have completed the high school preparatory course at the National Institute for International Education and have graduated (or are expected to graduate) from a domestic high school • North Korean defectors • Those who have completed the entire educational curriculum equivalent to Korea's elementary and secondary education (all school curricula from elementary to high school) while abroad Overseas Koreans and foreigners who have completed the course • Students whose parents are both foreigners

B. Criteria for Reflecting Grades

GED graduates	University Graduate Admission	Overseas Korean/Foreigner Admission
• Convert GED scores into GPA • Subjects reflected (3 subjects): Korean + English + Mathematics	• Previous university GPA (converted to percentile)	• Document screening

C. Method of Reflecting Student Record Grades

Recruitment period reflected semester	Reflection Subjects	Reflection Course	Reflection ratio by grade (%)			Reflection ratio by element (%)		Utilization indicators
			1st year	2nd year	3rd Year	Subject Grades	Attendance Scores	
Early Admission: 3 subjects up to the first semester of the 3rd year (Korean + English + Math)	30			30	40	90	10th Rank Grade	
Regular admission: 3 subjects up to the 2nd semester of the 3rd year (Korean + English + Math)	30			30	40	90	10 Rank Grades	

• If grades (grade rank) cannot be calculated, the grades for that grade will not be reflected.

• If grades (subject ranks) cannot be calculated, the grade for that subject will not be reflected.

• If grades for one grade level are unavailable, lower grades (40%) + upper grades (60%) will be applied.

• If grades for two grades are unavailable, the available grade (100%) will be applied.

• Applicants without student record scores (including foreign high schools): Assigned the lowest score (0 points)

D. Student Record Attendance Score Conversion Table

Graduation year	Until 1981					1982					Since 1983				
0 days absent		1~2	3~5	6~10	11 or more	0~1	2~4	5~10	11~20	21 or more	0~2	3~6	7~15	16~30	31 or more
Converted score	100	85	70	55	40	100	85		70	55	40	100	85	70	55	40

E. GED Score Conversion Table for High School Grades

Grade	Composition ratio (%)	Rank percentile (%)	note
1	4	0.01 ~ 4.00	• Score obtained = [Korean + English + Mathematics] Average score • Rank Percentage = (100 - Score) × 2.5 Calculated by rounding to the third decimal place
2	7	4.01 ~ 11.00	
3	12	11.01 ~ 23.00	
4	17	23.01 ~ 40.00	
5	20	40.01 ~ 60.00	
6	17	60.01 ~ 77.00	
7	12	77.01 ~ 89.00	
8	7	89.01 ~ 96.00	
9	4	96.01 ~ 100.0	

B. CSAT English Section Grade Conversion Table

Grade	1	2	3	4	5	6	7	8	9
Converted score	100	94	89	83	78	72	67	61	56
Reflection ratio (%)	25	24	22	21	19	18	17	15	14

Machine Translated by Google

5. Interview Information

Departments conducting interviews		Interview content	Supplies
Rolling admissions	Regular admission		
All departments (All applicants)	Varies by type (Refer to the grade reflection table)	• Attitude •tenacity • Aptitude • Sincerity • Career View	• Exam Ticket •ID

• The interview schedule is subject to change depending on the university's circumstances. • The interview method will be announced later via the website.

ÿ Important Notes for the Interview (Practical Test)

• Candidates for the interview (practical test) must check the preparation details, location, and time on the university website (http://enter.kunjang.ac.kr).

• Candidates for departments and majors conducting interviews (practical tests) must attend the interview; failure to attend will result in a minimum score of 0.

• The applicant is responsible for any disadvantages (such as disqualification) resulting from failure to answer contact (phone calls, etc.) from the department.

You must bring an identification card that proves your identity (Resident Registration Card, Driver's License, or Student ID) and your examination admission ticket.

6. Admission Criteria

A. Principles for Evaluating Successful Candidates

Principles for evaluating successful candidates
Selection is based on the total score (1,000 points) calculated by summing the scores obtained for each recruitment unit (selection type), and the final comprehensive score is calculated up to the fifth decimal place.
• The Special Admission (Internal Criteria) is evaluated collectively based on merit, regardless of eligibility (vocational school graduates, certificate holders, those with industrial work experience, or those meeting independent criteria).
• If the number of registered students in the special admission category falls short of the recruitment quota for a specific recruitment unit, the shortfall will be filled by transferring the quota to the general admission category and recruiting general admission applicants.
• If the number of registered students in the general admission category falls short of the recruitment quota for a specific recruitment unit, the shortfall will be filled by transferring the quota to the special admission category and recruiting special admission applicants.
• Reserve candidates are announced in order of merit by recruitment unit, and vacancies resulting from non-registration or tuition refunds are filled from among the reserve candidates.

B. Handling Ties

All types	University Graduate Admission
• 1st Priority: Students with high student record ranks (grades) • 2nd Rank: Subject Excellence - in the order of Korean, English (Science), and Mathematics • 3rd Priority: Recent Graduates • 4th priority: Younger	• 1st Priority: 4-year university graduates • 2nd Priority: Total Credits Earned • 3rd Priority: Younger

7. Announcement of Successful Candidates and Registration Method

Announcement of successful candidates	• Check individually on the university's admissions website (http://enter.kunjang.ac.kr)
Received certificate of acceptance and invoice	• Individual printout after the authentication process in the Admissions Inquiry on the university's admissions website
How to Register the Deposit for Early Admission Successful Candidates	• For early admission successful candidates, deposit the security deposit into the virtual account listed on the invoice during the registration period.
Final registration method	• Deposit into the virtual account listed on the invoice during the final registration period for the first round of rolling and regular admissions.

• If you do not register during the registration period, you will be processed as non-registered (acceptance cancelled), and registration will not be possible thereafter.

• Successful applicants in rolling admissions (including those admitted through supplementary admissions) are not eligible to apply for regular admissions or autonomous admissions, regardless of whether they register.

Applicants who have been accepted to multiple universities in the rolling admissions process must register at only one university, including the university accepted through the supplementary admissions process, within the rolling admissions registration period.

• If a person who has already registered at a university to which they were accepted through rolling admissions wishes to register at another university after being accepted through supplementary rolling admissions, the person who registered first

After giving up on college, you must enroll in the university you were accepted to through the supplementary admissions process.

• Applicants who paid a deposit for rolling admissions must pay the remaining tuition, excluding the deposit, during the registration period for initial successful applicants in regular admissions.

• The announcement date for successful candidates is subject to change depending on the university's circumstances.

8. Method of Reflecting School Violence Measures

Quantitative evaluation	Nos. 1~3	Nos. 4~5	Nos. 6~7	Nos. 8~9	note
deductions	0	-5	-10	-20	Deduction of points from the total student record

5. Scholarship System for New and Transfer Students in the 2027 Academic Year

구 분	장 학 명	자 격 요 건	장 학 금 액	적 용 기 간
성 적 우 수	창 조 (입 학 성 적)	수시모집/정시모집 수석 입학자(수시 1명, 정시 1명) 당해연도 고교 졸업자 중 장학위원회에서 선발 계속수혜기준: 재학중 직전 학기 평점 4.00이상 유지(기준 미달시 영구 탈락)	등록금 전액	해당 학기
특 별 장 학	교 직 원 추 천 (보 건 계 열)	보건계열(간호학과, 물리치료과) 지원자 중 교직원 추천자 (온라인 접수자는 해당없음)	30만원	입학 학기/1회
	대 회 수 상	**본교에서** 주최하는 각종 경시/경연대회 금상 이상 수상자	100만원	입학 학기/1회
	협 약 고 교	대학과 협약을 맺은 고교나 이에 준하는 교육기관(학력인정평생학습시설 등) 당해연도 졸업자 (간호학과, 물리치료과 제외)	수업료 50%	전체 학기
	만 학 도	만 30세 이상의 만학도(주민등록상 1997년 3월 1일 이전 출생자) ※ 국가장학금 신청자에 한함	100만원	전체 학기
	산업체근무자	산업체근무자, 자영업자(사업자등록증), 군복무자(재직증명서와 건강보험자격득실확인서 제출) ※ 야간학과 지원자에 한함	60만원	전체 학기
	스 마 트 인 재	**공학계열** 입학자(내국인 중 국가장학금 신청자에 한함)	100만원	전체 학기
	지 역 인 재	(대상자) 전북지역 소재 고등학교 당해연도 졸업자 또는 전북지역-검정고시 당해연도 합격자 (추천조건) 학교장(담임교사)의 추천을 받은 자 또는 해당 학과 교수 추천을 받은 자 ※ 국가장학금 신청자에 한함	수업료 전액	입학 학기/1회
복 지 장 학	광 동 가 족	광동학원 산하기관(재직증명서 발급가능 전체) 교직원 본인 및 배우자, 자녀 (매 학기 종합정보시스템에 직접 신청)	수업료 전액	해당 학기
	국 가 보 훈	국가유공자 본인 및 배우자(교육지원대상자 증명서 제출) 국가유공자 손·자녀(대학수업료면제대상 증명서 제출) ※ 대상자는 관할 보훈지청에 직접 문의하여 서류발급 후 입시센터에 원서와 함께 제출 ※ 국가유공자 손·자녀는 수혜횟수 초과시 지원불가 ※ 재학중 직전학기 평점 70점 미만이면 다음학기 지원불가	등록금 전액	해당 학기
	새 터 민	지자체에서 인정한 북한이탈주민(본인, 배우자, 자녀) (북한이탈주민등록 확인서 및 가족관계증명서 제출)	등록금 전액	전체 학기
	다 문 화 가 정	다문화가정임을 증명할 수 있는 자(본인, 배우자, 자녀) 기본증명서(상세) 또는 국적취득사실 증명서 등 제출	100만원	전체 학기
	희 망 드 림	전북경찰청 협약 추천 학생 직계가족 중 말기 암 환자 및 치매 환자가 있는 경우 부도 또는 파산으로 인한 가계곤란 학생 소년소녀가장, 보육시설 출신자 중 학비 마련 어려움이 있는 자 ※ 국가장학금 신청자에 한함	등록금 전액	입학 학기/1회
	장 애 인	**장애인** 전형 입학자(재학 중 장애등급을 받은 자)	50만원	전체 학기
	동 문	**본교** 졸업자(졸업증명서 제출/졸업예정자도 포함. 차후 졸업증명서 제출)	수업료 50%	전체 학기
	광 동 동 문	**광동학원** 산하기관 졸업자(중앙고, 사이버대학교)	수업료 30%	전체 학기
	형제자매부부	형제·자매·부부·부(모)자·부(모)녀가 동시에 재학 중인 자(최대 2명 지원) 선감면이 아닌 최종 입학 이후에 계좌로 지급(학번 발부 이후 재학중 지급) (재학증명서 각1부, 가족관계증명서 각1부 제출)	60만원	해당 학기
유학생 장 학	유학생 장학	**별도정함**	별도정함	별도정함

◈ 국가장학금 미신청 시 교내장학금 대상에서 제외될 수 있음.
◈ 모든 장학금은 등록금을 초과할 수 없으며, 이중지원을 금지함(단, 등록금 범위 내에서 국가장학금은 예외)
◈ 지원자는 본인이 유리한 장학금을 선택할 수 있음(단, 졸업 시까지 장학종을 변경할 수 없음)
◈ 본 장학제도는 정부/대학의 정책에 의해 변동될 수 있음.

Applicant Notice

1. Application

Submission • For rolling admissions, there is no limit to the number of applications to junior colleges. • You may apply to all departments at our college regardless of your high school track (humanities, natural sciences, arts and physical education, etc.). • By submitting an application to our college, you are deemed to have agreed to the online provision of your student records and CSAT scores.

2. Scope of Allowed Multiple Applications and Prohibition of Double Registration

• In the case of acceptance to a university conducting rolling admissions (including those on the waiting list who have expressed an intention not to register), regardless of registration status, this university and other universities

You cannot apply for “Regular Admission” and “Additional Admission”.

• Multiple applications between junior colleges or between a junior college and a four-year university are permitted during the Early Admission (1st and 2nd) periods. • Multiple applications are not allowed for any admission track (only one department may be applied to per admission period). • Applicants accepted to two or more universities in Early Admission must pay the deposit to only the final university within the Early Admission registration period. • After the admission schedule concludes, the application, acceptance, and registration status of all new students at all universities will be electronically searched. If prohibited multiple applications or double registration are confirmed, admission will be revoked. and admission is invalidated.

3ÿÿ Interview (Practical) Attendance Guide

• Candidates for departments and majors conducting interviews must attend the interview; failure to attend will result in a minimum score of 0 points. • You must bring an identification card (Resident Registration Card, Driver's License, or Student ID) to prove your identity and your examination ticket.

Announcement of Candidate Successful Candidates

• Reserve candidates for rolling admissions will be processed as admitted if they meet the admission ranking requirements, regardless of their intention to register; admitted candidates (including those who forfeit registration) are not eligible to apply for regular admissions or autonomous admissions.

• If an initial successful candidate for a specific admission track forfeits their registration, reserve (waitlist) candidates will be selected and notified according to their ranking. • Reserve (waitlist) candidates will be notified individually; if contact is impossible, it is the applicant's responsibility, and the next candidate on the waiting list will be selected. • Filling vacancies by department/field due to non-registration or tuition refunds will be notified individually according to ranking.

5. Tuition Details, Withdrawal of Registration, and Tuition Refund • If a student registered at this university wishes to withdraw their registration, they must submit the following documents.

ÿ Form of Withdrawal of Admission ÿ Consent Form for Collection and Use of Personal Information ÿ Identification Cards of Applicant and Guardian ÿ Copy of Bank Account Statement

• Tuition fees are fully refunded up to the day before admission; from the date of admission onwards, refunds will be processed in accordance with relevant Ministry of Education regulations (Article 6, Paragraph 2 of the Rules on University Tuition Fees). • After submitting the Application for Withdrawal of Admission, it is necessary to confirm receipt of documents with the Admissions Center (by phone). The applicant is responsible for any disadvantages resulting from failure to confirm document receipt.

6. Other Important Notes • Submitted documents will not be returned. • No corrections can be made to any matters related to the application after submission. • Applicants who were unsuccessful in a specific admission track must complete and submit a new application form to reapply. • Applicants who lack required documents, do not meet eligibility requirements, have not paid the application fee, or fail to attend the interview will be assigned a minimum score of 0. • Even after admission has been granted, if it is confirmed that admission or enrollment was obtained through fraudulent means, the admission or enrollment will be revoked. • If eligibility for a special admission track is found to be false, admission will be revoked. • After submitting the application, please check your examination ticket to verify your applied department, admission track, interview date, and registration date for successful applicants. • Individual admission evaluation (score) details will not be disclosed. • Our university manages the entire student selection process fairly and transparently through the "Admission Recusal and Exclusion System." • For the Special Admission (Within Quota) Talent (Athletic) track, a separate pledge confirming the absence of a history of disciplinary action for school violence must be submitted. • Matters not specified in the New Student Admission Guidelines will be deliberated and decided by the Admissions Management Committee.

Engine ies

Smart Automotive , Electrical and Mechanical Engineering (Day & Night)

The Smart Automotive & Electrical Machinery Department fosters field-oriented professional talent in the fields of smart automobiles, AI-integrated machinery, secondary battery systems, shipbuilding, electric energy, industrial machinery, and fire safety management. Reflecting the demands of the automotive, shipbuilding, secondary battery, electric energy, and machinery industries in the Gunsan and Saemangeum regions, the department offers training in CAD/CAM, electric vehicle diagnostics, battery manufacturing, quality, and safety, shipbuilding welding, automation equipment, and AI-based facility management. It strengthens students' major competencies and adaptability to the industrial field through industry-linked projects, field training, work-study programs, support for acquiring national technical qualifications, and career counseling.

• Smart Automotive Machinery Major • AI Convergence Machinery Major • Secondary Battery Systems Major • Shipbuilding Major • Electrical Energy Major • Industrial Machinery Major

Educational Objectives

The automotive and machinery, renewable energy, secondary battery and chemical engineering, and shipbuilding industries are pivotal national industries. In particular, to promptly respond to trends in local industries—such as electric vehicles, machinery-related industries, secondary batteries, energy, and chemical engineering, which are regionally specialized industries in the Gunsan and Saemangeum regions—and to cultivate talent tailored to industrial demands, we operate various major courses including Smart Automotive & Electrical Machinery, AI Convergence Machinery, Secondary Battery Systems, Shipbuilding, Electrical Energy, Industrial Machinery, and Fire Safety Management. By operating distinctive curricula for each major, we enable rapid adaptation to the diverse and rapidly changing regional industrial environment. Furthermore, by establishing a comprehensive education system for Automotive & Machinery, Electrical Energy, and Secondary Battery Systems, we aim to contribute to the development of the industry by strengthening cutting-edge technology and field-oriented practical training, and by educating talent equipped with creative and convergent capabilities as well as professional ethics.

curriculum

• Smart Automotive Machinery: Automotive Maintenance, Electric Vehicles, Automotive Electrical & Electronics, Vehicle Diagnostics, Automotive Inspection, Eco-friendly Vehicles • AI-Converged Machinery: CAD/CAM, Mechanical Design, 3D Modeling, Smart Factory, AI-based Equipment Diagnostics, Capstone Design • Secondary Battery Systems: Secondary Battery Chemistry, Battery Manufacturing Process, Battery Quality Control, Battery Safety, Basic Electricity • Shipbuilding: Shipbuilding Blueprint Interpretation, Hull Assembly, Welding Technology, Welding Quality Control, Shipbuilding Industrial Safety • Electrical Energy: Electrical Circuits, Electrical Equipment, PLC, Electrical Safety, New & Renewable Energy, Electrical Devices • Industrial Machinery: Machining, Precision Measurement, Equipment Maintenance, Machine Maintenance, Automation Equipment

Department Characteristics / Department Unique Activities

• Operation of high-skill transfer and field-practice-oriented education • Operation of company-linked projects, field training, and work-study programs • Support for acquiring national technical qualifications by major • Operation of customized company training and employment linkage programs • Special lectures by industry experts and on-site mentoring • Student mentoring for corporate adaptation and prevention of early attrition • Job training, Korean language support, and employment settlement support for international students

Certifications available

Acquisition of national technical qualifications in the fields of automotive, machinery, shipbuilding, electrical, secondary battery, fire safety, and environment, reflecting major-specific curricula and industry job demands Supports.

- Smart Automotive Machinery Major: Automotive Repair Technician, Automotive Repair Industrial Technician, Automotive Repair Engineer, Green Electric Vehicle Engineer, Automotive Body Repair Technician, Auto Car Repair Painting Technician
- AI Convergence Machinery Major: Computer-Aided Mechanical Drafting Technician, Computer-Aided Lathe Technician, Computer-Aided Milling Technician, Machine Design Industrial Engineer, Computer-Aided Machining Industrial Engineer Engineer, Automation Equipment Technician
- Shipbuilding Major: Shielded Metal Arc Welding Technician, Gas Tungsten Arc Welding Technician, Carbon Dioxide Arc Welding Technician, Industrial Welding Engineer, Industrial Shipbuilding Engineer
- Electrical Energy Major: Technician Electrician, Technician Electronics, Industrial Engineer Electricity, Industrial Engineer Electrical Construction, Industrial Engineer Electronics, Industrial Engineer Information and Communication Technology, Industrial Engineer Information Processing Technician in New and Renewable Energy Power Generation Equipment (Solar), Technician in Energy Management
- Secondary Battery Systems Major: Chemical Analysis Technician, Chemical Engineering Industrial Engineer, Hazardous Materials Industrial Engineer, Quality Management Industrial Engineer, Metallurgical Materials Industrial Engineer, Electrical Industrial Engineer, Industrial Safety Industrial Engineer
- Environmental Safety Field: Industrial Safety Technician, Hazardous Materials Technician, Gas Technician, Firefighting Equipment Technician (Mechanical Field), Firefighting Equipment Technician (Electrical Field), Industrial Engineer in Air Quality Environment, Industrial Engineer in Water Quality Environment, Industrial Engineer in Energy Management

Major Employment Sites

- Automotive & Machinery: Automotive manufacturing and parts companies, construction machinery manufacturing companies, automotive maintenance and inspection companies, smart factory and machinery and equipment companies
- Shipbuilding: Shipyards, ship block manufacturing companies, marine equipment companies, welding and quality inspection companies
- Electricity & Energy: Electrical facilities, power generation facilities, new and renewable energy, electrical safety and facility management companies
- Secondary Battery & Chemical: Battery material, component, and equipment companies; battery production and quality control companies; chemical and energy companies

Career path after graduation

- Automotive and electric vehicle maintenance and diagnostic companies • Mechanical design, CAD/CAM, and smart manufacturing companies • Shipbuilding, welding, and quality control companies
- Secondary battery manufacturing, quality, and safety management companies • Electricity, energy, and facility management companies • Public enterprises, public institutions, industrial research institutes, technical civil servants
- Transfer to a 4-year university and technology startup

Department of Nursing **(4-year program)**

Accredited by the Korea Accreditation Board for Nursing Education

The Department of Nursing was established in 2010 with the purpose of fostering creative professional nursing talents equipped with scientific nursing practice skills and global competencies, while contributing to disease prevention, treatment, rehabilitation, and the maintenance and promotion of health through the application of the nursing process based on scientific knowledge. The four-year program began operations in 2018 and received accreditation in the nursing education accreditation evaluation during the first half of the same year. Thanks to the efforts of the faculty and students, the department boasts high national licensing exam pass rates and employment rates. It pursues student-centered, customized education to cultivate competent nurses and global nursing leaders.

Educational Objectives

- Creative nursing intellectual
- Creative Nursing Global Citizen
- Creative nursing professional

curriculum

University's educational goals	Departmental Educational Goal:	Subjects Reflected •
• Fulfillment of Mission • Sincere Research • Value Creation	Cultivating Democratic Citizenship and Virtue	Required General Courses: Future Planning and Career Exploration, Character Education, Understanding and Application of Computers, Introduction to Philosophy, Basic English, ESG Service Learning
	Creative ability development	• Elective General Courses: Human and Creativity, Modern Society and Multiculturalism, Basic English, TOEIC I, TOEIC II, Reading and Discussion, Culture and Etiquette, Modern Society and Multiculturalism, Understanding and Application of AI
	Development of Problem-Solving/Organizational Understanding Competencies	• Basic Vocational Competencies: Problem-Solving Competency, Organizational Understanding Competency
	Training of specialized nurses	• Major Foundations (Humanities and Social Sciences): Understanding Human Psychology, Sociology, Communication, Human Development • Major Foundations (Natural Sciences): Anatomy and Physiology, Infectious Pathology, Nursing Informatics, Medical Terminology, Pharmacology, Critical Thinking and the Nursing Process • Major Required Courses: Basic Nursing Practice I, II, Integrated Advanced Nursing Skills, Integrated Simulation, Introduction to Nursing, Nursing Profession and Ethics, Critical Thinking and the Nursing Process, Basic Nursing I, II, Adult Nursing I, II, III, IV, V, Women's Health Nursing I, II, III, Pediatric Nursing I, II, III, Community Nursing I, II, III, IV, Psychiatric Nursing I, II, III, IV, Nursing Management I, II, Geriatric Nursing, Health and Medical Regulations, Clinical Practice in Adult Nursing 1, 2, 3, 4, Clinical Practice in Women's Health Nursing, Clinical Practice in Pediatric Nursing, Clinical Practice in Psychiatric Nursing 1, 2, Clinical Practice in Community Nursing 1, 2, Clinical Practice in Geriatric Nursing, Clinical Practice in Nursing Management, Integrated Clinical Practice, Integrated Practice Nursing • Major Electives: Nursing and Nutrition, Complementary and Alternative Medicine, Health Assessment, Diagnostic Tests and Nursing, Rehabilitation Nursing, Leadership Development and Nursing, Dementia Care Nursing, Nursing Research

Department Characteristics / Special Activities

- Lifelong Faculty Advisor System • Student Guidance Program
- Language Proficiency Improvement Program for Enrolled Students • KJ Academic Festival for Student Competency Enhancement • BLS-Provider Certification Course
- Overseas Field Practice
- Industry-Academic Collaboration and Field Training with University Hospitals, Specialty Hospitals, Companies, etc. • Mock Exams for National Exams (Over 5 times a year) • Customized Employment Programs: Mini Job Camps, Special Employment Lectures
- Community-linked volunteer programs: Life Angles (Mental Health Supporters), Green Defenders (Addiction Supporters) • Participation in various medical/nursing-related events: Blood donation, smoking cessation, organ donation campaigns • Participation in at least one club per person: BLS Club, Life Love Supporters, Hiking Club, TQMD (Quality Management Debate), KJN Cinema, KJ Nursing Volunteer Corps, Navigation, Overseas Employment Club NCLEX, FC Gunjang Nursing, Nanum Plus Volunteer Club, Gunjang University RCY, Life Sharing Flower • Events to foster local attachment among students: Gunsan City Tour

Certifications available

- Nurse License • U.S. Nurse License • Advanced Practice Nurse License
- Health Educator Certification • Midwife License • BLS Provider, BLS Instructor Certification
- Hospital Coordinator certification, etc.

Department of Physical Therapy **(3-year program)**

• The Department of Physical Therapy at Kunjang University [produces] highly skilled physical therapy professionals who assist in the recovery of various bodily functions, including the musculoskeletal, nervous, and cardiopulmonary systems.
It fosters growth.

• This department covers future healthcare trends such as AI rehabilitation, digital healthcare, wearable assessment, and tele-rehabilitation
We operate a convergence curriculum that reflects this, and provide simulation practice reflecting actual clinical settings and community-based clinical practice programs
Through this, we cultivate practical skills that enable immediate clinical deployment right after graduation.

• Through the 3-year Associate's degree program and the 1-year Bachelor's degree advanced major program, it is possible to both link degree attainment and deepen clinical expertise, and to pursue graduate studies
We also actively support growth as researchers, educators, and professional physical therapists.

Educational Objectives

• Self-directed learning competency – Cultivating lifelong learning abilities to actively respond to the changing medical environment and continuously develop professional expertise
• Ethical Communication Competency – Cultivating ethical awareness and multidisciplinary collaboration skills to practice holistic treatment based on respect for life and human rights
• Convergent Problem-Solving Competency – Strengthening the ability to solve clinical problems creatively and logically through convergence with AI rehabilitation and digital healthcare

Department Characteristics / Department Unique Activities

• Excellent National Exam Pass Rate - Maintaining a High Pass Rate on the National Physical Therapist Exam
• Operation of Advanced Major Program for Bachelor's Degree - Obtain a Bachelor's degree through a 1-year course after graduating from the 3-year program.
• Designation as an Accredited Education Track - Recognized as a related major for the Korea Institute for the Development of the Disabled's Developmental Rehabilitation Service (Exercise) Qualification Certification (3rd Review in 2023)
• Activities to Enhance Clinical Practical Competencies – Operation of integrated on-campus and off-campus activities such as academic festivals, capstone design, and clinical simulations
• Customized Curriculum Certification Track - Operation of professional certification programs reflecting industry demand
• Community Medical Volunteer Activities – Promoting the health of local residents and sharing knowledge through medical support for local events such as marathons and regular community service.

Department Overview (Features)

• Employment Rate: 90.9% (As of Dec. 31, 2025)
• National Examination Pass Rate: 100% (As of Dec. 31, 2023) National Average Pass Rate: 81.9%
• Certification Acquisition Rate: Physical Therapist License Acquisition Rate 100% (As of Dec. 31, 2023)
• Accreditation Obtained: Accreditation of Department Operating Developmental Rehabilitation Service (Motor Development) Curriculum
• Government-funded linked projects: Innovation Support Project, RISE Project, etc.

Certifications available

• Physical Therapist License, Sports Physical Therapy Certification, Senior Healthcare Instructor, Geriatric Rehabilitation Counselor, Pilates Certification, Physical Therapist for the Geriatrics
Operating numerous professional certification courses

Career path after graduation

• Medical institutions (university hospitals, general hospitals, hospitals)
Public health officials
• Social welfare institutions (elderly, children, people with disabilities)
• Sports clubs (professional, amateur)
• Industrial safety management team, etc.
• Rehabilitation Hospital
• Nursing home for the elderly
• Industrial physical therapy center
• Sports team physical therapist
• Civil servants (public health, medical technology), medical administration officers
• Study abroad, employment immigration (USA, Canada, Australia, etc.)
• Acquisition of Bachelor's Degree (Transfer to a 4-year university, Advanced Major Course)

Major Employment Sites

• Dong Gunsan Hospital • Dream Sol Hospital • Iksan Suyo Nursing Hospital • Gunsan Wonkwang Hyodo Nursing Hospital • Gunsan Cham Sarang Nursing Hospital • Social Welfare Institutions

Educational goals

• Training practical professional chefs for hotels, food service, and baking

Department Characteristics / Special Activities

• One-on-one practice-oriented education: We conduct customized intensive training in dedicated practice rooms to maximize each student's practical proficiency.

• Academic Festival and Startup Simulation: The 'KJ Academic Festival' is held every semester, where first and second-year students engage in activities ranging from brand planning to menu development and on-site service.

We operate a program that oversees the entire process.

• Participation in domestic and international cooking competitions

• Preparing for the operation of the course-based qualification acquisition system linked with the Human Resources Development Service of Korea (27th academic year)

Department Overview (Features)

• Employment Rate: 83.5% (As of Dec. 31, 2024 / Based on the highest indicator of the last 3 years)

• Major Certification Acquisition Rate: 92.0% (As of Dec. 31, 2024 / Average of 3 or more certifications acquired per person)

• Scholarship Recipient Rate: 100% (As of Dec. 31, 2024 / Includes National Scholarships and Special Internal/External Scholarships)

• Government-funded linked projects: Universities designated under the Ministry of Education's RISE project (Regional Innovation-Centered University Support System), institutions implementing innovation support projects (through government funding

Abundant scholarship benefits, expansion of state-of-the-art equipment)

Acquired Certificates

• Korean, Chinese, Japanese, and Western Cuisine Cook, as well as Pastry & Baking Technicians, Coffee Barista, etc.

Career path after graduation

Famous domestic hotels such as Shilla, Chosun, Walkerhill, Lotte, Four Seasons, Plaza, etc.

• Large corporate food service companies such as Samsung, LG, and Shinsegae

• Transfer to a 4-year university with a major in food service and culinary arts is possible

Major Employment Sites

• Luxury Hotels: Chosun Hotel, Walkerhill Hotel, Four Seasons Hotel, The Plaza Hotel

• Major Corporations and Major Institutions: Samsung Welstory, Shinsegae Food, Hyundai Green Food

Smart Horticulture & Landscape Architecture Department of Horticulture & Landscape Architecture

The Department of Smart Horticulture and Landscape Architecture focuses on garden and horticultural landscape management in response to the changing times and culture of the nationwide expansion of national gardens and the healing industry.

It is a convergence and creative department aiming to cultivate field-oriented professionals in response to the increasing demand for specialized personnel, and particularly for adult learners

Operation of a nature-friendly curriculum focused on practical training and practice, along with remote classes and intensive field training tailored to the characteristics of adult learners.

By operating a practical and experience-oriented academic system through classes and other means, we continuously cultivate talent capable of playing a significant role in national industries.

It is a department that trains.

Educational goals

- Fostering experts through customized education for the landscaping and horticulture industries, which are key to improving the quality of human life
- Fostering experts who meet the demands of the plant production and garden culture industries through continuous field training
- Fostering interdisciplinary talents, such as experts, to cope with rapidly changing climate and landscape changes
- Education to promote employment and entrepreneurship through customized training in tree treatment, smart garden operation and management, plant production, design, distribution, etc.

Educational goals

• Cultivate the virtues and qualities of democratic citizens equipped with leadership by realizing creative human education

• Development of basic vocational competencies, such as students' work ethics and resource management skills

• Development of students' creative abilities (creativity) using creative education teaching methods

• Acquire high-value-added food processing technology by understanding the food science, nutritional, and functional characteristics of raw materials for healthy agricultural products and mastering processing techniques.

Fostering smart 6th industry experts to lead the food industry in the era of the 4th Industrial Revolution

Department Characteristics / Special Activities

• 6th Industry-Type Food Science Education: Focusing on food processing technology and functional food development capabilities based on the nutritional, hygienic, and functional theories of raw materials.

We provide education for the region-specific agri-food industry by operating problem-solving project classes that reflect local food, senior food, and slow food trends.

nurture talent

• Field-oriented practical training: Develop practical entrepreneurial skills by experiencing the entire process from raw material harvesting to processing, distribution, and sales through the major club 'God of Fermentation'.

Strengthen and maximize the potential for food startups through specialized training in fermented food manufacturing technology.

• Jeonbuk Regional Industry Linkage and Cooperation System: Practical training through field practice and industry-academia cooperation projects with agricultural and food-related institutions and food companies in Jeollabuk-do

Implement and bridge the gap between theory and practice through mutually complementary cooperation with local governments, food companies, and agricultural corporations.

Department Overview (Features)

• Government-funded linked projects: Participation in RISE Project, Innovation Support Project, and University Co-prosperity Project

Certifications available

• Food Processing Technician, Rice Cake Manufacturing Technician, Food Industry Engineer, Distribution Manager, Agricultural Product Quality Manager

• Traditional sauce manufacturers, traditional liquor manufacturers, flower tea sommeliers, fermented food manufacturers, dietary coaching instructors, etc.

Career path after graduation

• Public institutions such as agricultural technology centers and local government food-related departments

• Specialized manufacturing and quality control in the fields of traditional fermented foods and agricultural product processing

• Various fields of creative career activities, such as local food-based startups, food culture experience instructors, and food content planning

Department of **Fashion** Textile Industry

The Department of Fashion Industry operates a dedicated program for adult learners (aged 25 and older). By establishing a sustainable lifelong education system, it provides adult-friendly curricula and systems to cultivate professional talent for K-Fashion, integrating the fashion industry with culture and arts. “Acquisition of the Culture and Arts Education Instructor (National Certification), the only one in Jeonbuk, upon graduation” / “Acquisition of a Bachelor’s degree through opportunities for continuing education in advanced major courses.”

• Department of Fashion Textile Industry (Associate Degree Program) • Department of Fashion Industry (Advanced Major Program)

Educational Objectives

• Fostering specialized personnel in culture-art convergence fashion through educational curricula tailored to the demands of local industries • Cultivating professionals equipped with cultural and artistic expertise and educational aptitude to realize the value of sustainable lifelong education • Nurturing talent capable of actively responding to a diverse social structure and the Fourth Industrial Revolution, focusing on the technical knowledge required for the fashion industry

Department Characteristics / Special Activities

• Providing opportunities to acquire the Cultural Arts Educator certification upon graduation by establishing job competency courses and obtaining departmental major recognition for the Level 2 Cultural Arts Educator certification issued by the Ministry of Culture, Sports and Tourism. • Establishing an educational system for training natural dyeing experts through an agreement with the Naju Natural Dyeing Cultural Foundation, including opening courses for obtaining the Natural Dyeing Instructor certification and assigning specialized instructors. • Conducting systematic education for entrepreneurial success by discovering startup items linked to local culture (such as fashion clothing, accessories, modern Hanbok, and Hanji fashion items), supporting prototype production, and providing startup incubation. • Securing career development management and competitiveness for employment and entrepreneurship through support for participation in exhibitions, fashion shows, and competitions, as well as diverse product development linked with school enterprises centered on digital printing. • Introducing a certification system to evaluate overall performance capabilities in the design and production of fashion goods (clothing, accessories, etc.), granting opportunities to meet qualification requirements upon course completion, and providing opportunities to be certified as experts in fashion product manufacturing by issuing professional certificates in the name of the University President.

Department Overview (Features)

• Department accredited for the National Certification of Culture and Arts Education Specialist (as of June 2020), guaranteeing certification to 100% of graduates • Holds 4 types of private certifications issued in the name of the President [Registered with the Korea Vocational Training Institute] (Fashion Product Production Instructor, Craft Culture Product Production Instructor, Natural Dyeing Product Production Instructor, Digital Culture Product Production Instructor) • Recognized for Natural Dyeing Instructor certification curriculum • Bachelor's degree attainment possible through linkage with advanced major courses • Conducts collaborative projects with global universities and institutions in China, the United States, the Czech Republic, and other countries • Participation in government-funded projects: Innovation Support Project, ANCHOR Project, etc.
